SERHII TONKONOZHENKO

Innovative Full Stack Developer | Web & Blockchain Specialist

@ sergil122132@gmail.com 📍 Zviahel, Ukraine

SUMMARY

I have a reputation for delivering projects quickly and flawlessly, with a strong focus on efficiency and quality. I specialize in building scalable solutions that not only meet your expectations but set you apart from the competition. From creating user-friendly interfaces that delight your customers to developing backend systems as reliable as they are robust, and blockchain integrations as secure as a vault, I always do my best to make your project successful and on time.

EXPERIENCE

Full Stack Developer

SoftServe

📅 09/2021 - 10/2024   📍 Lviv, Ukraine

- Designed and developed dynamic web applications, ensuring scalability and responsiveness across various devices.
- Collaborated with cross-functional teams to deliver customized software solutions for clients in industries like fintech, e-commerce, and healthcare.
- Built and maintained backend systems using modern frameworks, ensuring high-performance and data integrity.
- Developed and integrated frontend interfaces for seamless user experiences.
- Participated in code reviews to maintain quality standards and improve team efficiency.
- Worked in an Agile environment, contributing to sprint planning, daily stand-ups, and retrospective meetings.
- Gained experience in blockchain-based web3 solutions and other emerging technologies.

Web Developer

Stfalcon

📅 12/2019 - 08/2021   📍 Khmelnytskyi, Ukraine

- Built and maintained scalable web applications using modern development practices.
- Collaborated with cross-functional teams in an Agile environment, participating in daily stand-ups, sprint planning, and retrospectives.
- Conducted code reviews to ensure quality, consistency, and adherence to best practices.
- Wrote unit tests to maintain code reliability and reduce bugs in production.
- Enhanced skills in front-end and back-end development while learning advanced debugging and optimization techniques.
- Contributed to delivering client projects on time while ensuring high performance and user satisfaction.
